## Lightning and Surge Protection for The 21st Century ${ }^{\mathrm{TM}}$

The Times-Protect ${ }^{\circledR}$ LP-GTV-N series is an exceptional broadband DC pass design for lightning protection applications requiring DC power to be supplied to the electronics. These devices exhibit outstanding RF performance with high surge current handling characteristics and cover a broad range of applications requiring up to 150 W of RF power handling. Its fully weatherized housing meeting IP67 standard allows for outdoor as well as indoor installation. The N connector designs cover the entire frequency spectrum from DC through 7000 MHz .

## LP-GTV-N Series:

- LP-GTV-NFF (150W)

N Female connectors on both sides - bidirectional

- LP-GTV-NFM (150W)

N Male connector on one side \& N Female connector on the other side - bidirectional
