

SPECIFICATION

Electrical Specifications	
Frequency Range(MHz)	698~960/1710~2690
VSWR	≤3.5
Input Impedance	50 Ω
Gain peak (dBi)	0/2
Polarization	Vertical
Connector Type	SMA-male
Mechanical Specifications	
Dimensions (mm)	141×25×7
Cable length(mm)	1500±50
Weight (g)	59±10
Antenna Color	Black
Working Temperature (°C)	-40~85
Water proof	IP53

Tear off the sticky tape cover

Installation Steps:

- 1 tear off the sticky tape cover
- 2 keep the sticky tape clean
- 3 keep antenna on vertical orientation then stick the antenna to the object where antenna should be mounted

Make sure the antenna is vertical to the ground before sticking it to the object
